Education

University of Virginia, School of Engineering and Applied Science

GPA 3.80

B.S. in Computer Science | B.S. in Mathematics

August 2023 – May 2027

Coursework Data Structures & Algorithms I/II, Software Engineering I/II

Experience

Veeva Systems, Pleasanton, CA

Software Engineer Intern, AI

May 2026 – Aug 2026

- Designed & deployed AI agents for the Vault CRM platform, supporting 200+ enterprise customers internationally
- Developed a scalable evaluation pipeline (in **LangSmith/Langfuse**) to track AI agent performance, enabling targeted fixes to models to improve customer end-user experience.
- Improved model performance (factual accuracy, language match, tool selection) from 40% → 70% via such fixes

Cavalier Autonomous Racing, Charlottesville, VA

Software Engineer, Perception

March 2026 – Present

- Engineered real-time C++ algorithms to detect opponent race cars at speeds up to 120 mph, integrating new **RADAR & LiDAR** sensors and refining perception during on-track testing at Laguna Seca and Indianapolis Motor Speedway
- Deployed a runtime profiler to capture latency along the perception pipeline: **LiDAR** input → localization & mapping (**SLAM**) → Kalman filter (**EKF**) → trajectory prediction/controls
- Enhanced opponent trajectory prediction by 40% via precomputed track velocity compensation model

Chapter One, New York City, NY

Software Engineer Intern, AI

May 2025 – Aug 2025

- Implemented AI assistant to streamline onboarding in the CRM, reducing setup time by 30%, improving activation rates by 25%, and accelerating time-to-revenue to drive an incremental \$25k in quarterly ARR
- Achieved +20% conversion rates by deploying a predictive lead-scoring model into **Salesforce**
- Designed a real-time dashboard using **React** and **D3.js**, aggregating CRM data to analyze engagement trends and empowering marketing to boost click-throughs by 15%

StudyStay, Charlottesville, VA | Website

Co-Founder, Software Engineer

September 2024 – September 2025

- Co-founded a platform connecting exchange students with domestic and overseas housing, securing a \$10,000 seed grant from the Darden School of Business (at UVA) and generating 5-figures in initial revenue
- Spearheaded 100% of the development for www.studystay.us/in, scaling to accommodate 500+ unique users, using **NextJS**, **Prisma**, and **AWS** services.

Technical Skills

- | | |
|---------------------|--|
| • Languages | C++, Java, Python, TypeScript, HTML, CSS, SQL |
| • Frameworks | ReactJS, NextJS, Spring Boot, TensorFlow, PyTorch |
| • Cloud | AWS (Lambda, S3, DynamoDB, Cognito, Aurora, etc.), MongoDB |

Certifications

Amazon Web Services Certified Cloud Practitioner

Expires June 2027
